

2026 Ride In

Covered Bridge Ride

Brief Description:

This ride will take you to five covered bridges with a stop at [Yoders Dinner Bell Dinner Market](#) in Flemingsburg.

The first stop is at the [Colville Covered Bridge](#). You can still drive across this bridge. Trikes may need to be careful because the bridge has two tracks for cars. There is a place to pull off and take pictures of the bridge before you cross the bridge.

From the Colville Bridge, you can stop at [Johnson Creek Bridge](#) or head to the Dinner Bell Market. The Johnson Creek Bridge has some loose gravel in the parking lot so you might decide to pass on this bridge and continue to the restaurant.

Once you arrive at the restaurant, you can order your lunch at the counter by filling out one of slips of paper at the lunch counter. They have tables and chairs in front of the restaurant to enjoy your lunch.

After leaving the restaurant, you will visit the [Goddard Bridge](#), the [Ringos Mill Bridge](#) and the [Grange City Bridge](#). You can drive across the Goddard Bridge. The other 2 bridges were recently refurbished and are in great shape for visitors.
