KENTUCKY ROAD RIDERS STATE NEWSLETTER

KENTUCKY

Inside Kentucky

Kentucky Going West

June took KRR West to South Dakota. Twenty KRR members made the bold decision to keep their reservations when the Wing'd Rally was cancelled, and I don't think anyone was disappointed. After thousands of miles on the road, several national parks and monuments, an incredible state park, and a whole bunch of fun later, everyone is home safe and had a great time. This edition offers pictures from the trip and represent great memories that this group will never forget.

State Directors Report

**Rick and Leah
Cridlin**

Kentucky State Directors

Is it really July? June was a great month that had so much going on. A big THANK YOU to Chapter Y for hosting a great Ride-In. Mother Nature showed herself, but was kind enough to chill out while we were out riding, at least for the most part. I was able to go on guided rides on both Friday and Saturday and really enjoyed myself. Dan Bondurant and Steve Knode did an excellent job leading them and treated us to some great roads and scenery. The cookout at our campsite was well attended, and the dinner catered by Four Little Pigs was excellent. Every chapter was represented and it was really good seeing everyone. Roger Early announced that Chapter C will host next year's ride-in and we can't wait to see what they have in store for us. Keep checking our website at www.kyroadriders.org where information will be posted and updated.

What a ride! Leah and I were joined by 9 others (Rick & Kim Artmayer, Charlie & Rena Hobbs, Randy & Kim Pommier, and their grandson Logan, and Jerry & Luanne Williams for a ride to Rapid City, South Dakota, where we had planned to attend Wing'D Rider Rally #3, which was cancelled. That didn't alter our plans to go and enjoy all the great riding the area has to offer. Unfortunately our trip there wasn't uneventful as Mother Nature threw a fit on us in Nebraska, causing us to pull to the side of the road twice to endure the hailstorms she was intent on giving us a first-hand experience with. Those were by far the worst weather I have ever ridden in, and I am so thankful that our ride leader, Rick Artmayer, had the great sense to pull over before we got hammered. We were in the middle of nowhere with no shelter, so we just put the kickstands down and leaned into the wind, rain, and hail. It wasn't fun, but it sure does create a memory. We were only 9.4 miles from our hotel in Ainsworth, NE when the second storm hit, but there was no pushing through it safely. Once we arrived in Rapid City, we were met by 9 others (Donita Nardi, Ron Harper, Jeff Hinkle, Janice Pack, Steve Poat, Mary & Melissa Eicher, and Neal & Alice Scifres, from Kentucky, and we spent the next two days riding together and enjoying the sites, which included, Custer State Park Wildlife Loop, Needles Highway, and Iron Mountain Road. We also rode to Sturgis, through Spearfish Canyon, and visited Deadwood. On Thursday evening all 20 of us attended a Chuckwagon Dinner and show and a few of us even rode the Buffalo Coaster. That was an experience! Leah and I, along with Rick and Kim Artmayer spent our last day there riding to the highest point in North Dakota, called White Butte. We didn't actually get to ride to the highest point, because it was a gravel road and we opted to just continue another 34 miles north to eat a Trappers Kettle in Belfield. This was our first time visiting North Dakota, and I have now visited 49 States and ridden in 41 of them. The trip home had the group splitting up and people leaving at different times on different days. My group consisted of Rick Artmayer and Charlie Hobbs, after we dropped off Leah, Kim, and Rena at the Rapid City Airport. You'll have to ask the ladies about their trip home. The 3 of us rode 781 miles the first day stopping near Iowa City, and riding another 476 miles to home on the second day. My odometer showed 3785 miles for the trip and I would do it again! My thanks to everyone who made the trip and shared time with us. We really enjoyed your company.

State Directors Report - Continued

Kentucky State Directors

So what's next Kentucky? That would be The Blast, which is being held at General Butler State Park August 14-16, and the theme is Ridin', Rockin', and Rollin' with a buffet dinner and a Casino night on the 15th. Now some of you may be thinking that you could go broke spending a small fortune at the casino. Well, don't worry about that! Everyone will be getting chips in your registration packet to use to play the games at the casino, where you can win tickets for prizes. You can also use your tickets to get more chips to play more games, or you can use your winning tickets for chances to win prizes. You do have an option to buy more chips if you choose to do so, and there is only 1 game you will have to pay to play, so you can come to the casino and not spend anything extra and have a chance to walk away with some nice prizes. Registration and lodging information is available on our website at www.kyroadriders.org.

On a personal note, Honda came out with a new CB for the 2025 Goldwings, so my new toy now has a CB radio and is ready to come out and play. I'll get a chance to test it out on Chapter G's ice cream ride later this evening.

Ride safe,

Assistant Directors Report

**Dan and Rita
Bondurant**

Assistant Directors

Hope everyone enjoyed the KY Ride In this year from the rides to the food, Ch. Y enjoyed hosting it. Not sure about the rest of KY but Western KY has had nothing but RAIN AND HEAT with 100 plus heat indexes. We've done a little riding but not much due to the heat. We are looking forward to The Blast next month, seeing new sites and riding areas.

Please keep all the people in Texas in your prayers that have lost loved ones and friends along with all the FIRST RESPONDERS in the flooding.

As always if you see a bike out somewhere invite them to come ride with us. Who knows it may be your new best friend!!

That's all from the West this month.

**Rick and Kim
Artmayer**

State Educators

State Educators Report

A panda walks into a bar and gobbles some beer nuts. Then he pulls out a gun, fires it in the air, and heads for the door. “Hey!” shouts the bartender, but the panda yells back, “I’m a panda. Google me!” and continues out the door. Sure enough, panda: “A tree climbing mammal with distinct black-and-white coloring. Eats shoots and leaves.”

This month I would like to present information about the environmental concerns of our sport. As an outdoor activity, we are subject to all the critters Mother Nature has seen fit to provide.

Some of these pests can cause irritation and distraction, but there are things we can do to lessen their impact on our fun. Let’s examine the Mosquito. Although science has yet to pinpoint what mosquitoes consider an ideal victim, there is a tremendous amount of research being conducted on what compounds and odors people exude that might be attractive to mosquitoes. But with 400 different compounds to examine, researchers are just beginning to scratch the surface. It’s not dinner they are sucking out of you. While male mosquitos do not bite people -- female mosquitoes bite us to harvest proteins from our blood to develop fertile eggs. People with Type O blood are bitten nearly twice as often as those with Type A, while people with all other blood types fall somewhere in the middle. Mosquitoes locate their victims using an organ called a maxillary palp which detects the carbon dioxide in a person’s breath from as far away as 164 feet. As a result, people who simply exhale more of the gas over time—generally, larger people—have been shown to attract more mosquitoes than others. This is one of the reasons why children get bitten less often than adults. In addition to carbon dioxide, mosquitoes find victims at closer range by smelling the lactic acid, uric acid, ammonia and other substances expelled via their sweat, and are also attracted to people with higher body temperatures. Strenuous exercise increases the buildup of lactic acid and heat in your body. Genetics also influence the amount of uric acid and other substances naturally emitted by each person. People with high concentrations of steroids or cholesterol on their skin surface attract mosquitoes. Pregnant women have been found to attract roughly twice as many mosquito bites as others, likely because they exhale about 21 percent more carbon dioxide and are on average about 1.26 degrees Fahrenheit warmer than others.

Other research has suggested that the particular types and volume of bacteria that naturally live on our skin affect our attractiveness to mosquitoes. This might be why mosquitoes are especially prone to biting our ankles and feet as these areas naturally have more robust bacteria colonies. Just a single 12-ounce beer can make you more attractive because drinking alcoholic beverages increases the amount of ethanol excreted in sweat, and it increases body temperature.

State Educators Report– Continued

**Rick and Kim
Artmayer**

State Educators

Mosquitoes use vision in addition to scent to locate humans, so wearing colors that stand out (black, dark blue or red) may make you easier to find. To minimize your risk of being bitten, wear clothes that cover exposed skin. Insect repellants made with the chemical DEET or Picaridin have been proven effective to repel mosquitoes. As a natural alternative, mosquito plants and citronella candles work well too. In summary, if you are a Type O, exercising, pregnant woman in a black shirt, I suggest staying indoors. For the rest of us, stay clean, drink water, wear light colored clothing, and use an effective insect repellant.

Be sure to stock the first aid kit on your bikes with itch relief for when these pests get past your best efforts of prevention.

State Ride Coordinators

**Bruce and
Kathy Hensley**

State Ride Coordinators

What a riding season this has been, at least for those of us in Western Ky. First there was rain every other day and now heat in the high nineties. It makes it difficult and sometimes dangerous to plan a ride. Plan accordingly. More frequent stops and longer rest times are needed and watch each other closely for signs of heat stroke, heat exhaustion or other maladies that can be brought on by this excessive heat.

On another safety note; my heart goes out to the bikers in Grayson County that were injured by the recent road rage incident. What is wrong with people anymore? It seems common courtesy is not in vogue anymore. Even with you and your co-rider watching out for potential hazards there is no way to predict this kind of idiot. Be safe and watch out for each other.

John Keiter

State Pins and Patches

State Pins and Patches

Summer is here!

As I write this article, it's 94 degrees outside; too hot to be on the bike. Cooler weather is coming, do not fear.

Our annual Kentucky Blast will be here in August, and if you haven't registered yet, there is still time to do so.

The Ride In was a great success (a little wet, though) and next years looks to be a good one as well.

If you choose to ride, please stay hydrated! It's quite important with the weather being so hot. Heat stress affects your body as well as your bike; don't get complacent with either.

See you all at the Blast! (don't forget hearing protection)

State Member Enhancement

Happy Independence Day, Kentucky Road Riders! The weather has definitely shifted from rain to blazing heat. Can you believe that 2025 is half over already? The time certainly flies. Already this year we have enjoyed the annual Ops Meeting and the amazing Ride In hosted in Western Kentucky by Chapter Y. Plus, a number of our members (20 if I remember Facebook posts accurately) just returned from a wonderful ride out to South Dakota. But there is still plenty of riding opportunities for the second half of the year. We have the Blast coming up at General Butler August 14th – 16th and a KRR state ride being planned by our State Ride Coordinators Bruce and Kathy Hensley for October. Along with these amazing events, the KRR Bingo Challenge is going on now. Remember you only have to complete one line of 9 in any direction – across, down, or diagonally – for a chance to win the grand prize. Send your pics of the Bingo objects to mepc@kyroadriders.org by Saturday, August 9th to allow time for the entries to be verified and a winner to be selected prior to the Blast. Enjoy your summer riding and stay safe!

Jim and Kay Bryan

State Couple of the Year

State Couple of the Year

Two or Three Wheels, One Heart: Reflections from Your State Couple of the Year

Hey fellow riders!

We're still buzzing from the incredible honor of being named your Couple of the Year. It truly means the world to us, and we wanted to take a moment to express our sincere gratitude and share a few thoughts on what makes this riding community so special, and to apologize for our failure to provide articles each month.

When we first joined Chapter K, we were just a couple with a shared passion for riding our trike. We were looking for camaraderie, adventure, and a place to truly belong. What we found was so much more. This isn't just a motorcycle club; it's a family.

Over the years, we've witnessed the incredible spirit of this group firsthand. We've seen:

- **Unwavering Support:** Whether it's helping a rider with a breakdown on a long haul, or simply offering a listening ear after a tough day, you're always there for each other. Our first breakdown on the road we were riding with Greg & Marilyn Leslie. We about had to beat them with a stick to get them to leave us to wait for a tow. We were in good hands of a fellow rider who brought a big fan to keep us cool and offered us cool drinks.
- **Shared Adventures:** From scenic weekend rides through winding roads to epic journeys, the memories we've created together are priceless. The laughter, the shared experiences, and the feeling of freedom on the open road – that's what it's all about.
- **A Welcoming Spirit:** No matter your riding experience, your bike, or your background, you're welcomed with open arms. This inclusive atmosphere is what makes our club so unique and special.

A passion for safety: We've been impressed by the constant effort to improve rider safety through organized training, group discussions, and a culture of responsible riding.

We remember our first group ride vividly. We were nervous, unsure of what to expect, but immediately, we were embraced by the warmth and enthusiasm of the group. Since then, we've strived to give back to the community that has given us so much.

For us, being a riding couple is more than just sharing a hobby. It's about:

- **Shared Passion:** Riding together strengthens our bond and allows us to experience the world in a unique and exhilarating way.
- **Mutual Support:** We rely on each other on the road, watching each other's backs and ensuring each other's safety.

Creating Memories: The adventures we've shared on our bikes have created memories that will last a lifetime.

Jim and Kay Bryan

State Couple of the Year

State Couple of the Year—Continued

We believe that the strength of our club lies in the collective spirit of its members. Every single one of you contributes to the vibrant and supportive environment that makes this club so special.

We encourage everyone to:

- **Get involved:** Volunteer your time, participate in club events, and share your passion with others.
- **Welcome new riders:** Extend a hand to newcomers and make them feel at home.
- **Ride safely:** Always prioritize safety and look out for your fellow riders.

Enjoy the ride: Remember why you ride in the first place – for the freedom, the adventure, and the camaraderie.

Now about Bernie: Our Chapter Couple of the Year, Debi and Tony jumped in with both feet chasing the Mascot until health issues got in the way. The past couple of years have been difficult for both of them, first Debi and now Tony. Both of us committed to supporting them by chasing Bernie, then Tony had to fall out of his truck to start his health problems. All of us at Chapter K are looking forward to their return to participation and we are hoping all is well by the time of the Blast so they can be with all of us!!

Thank you again for this incredible honor. We're proud to be a part of this amazing community, and we look forward to many more miles and memories together.

See you on the road!
Jim and Kay Bryan

State Individual of the Year

What the heck was that loud noise I heard that made me almost jump out of my chair!?!?!? I looked at Reba with her ears droopy and her tail between her legs, it was apparent she had heard it too! However, she doesn't say much since she is my 7-1/2 lb. watch dog that I keep around for protection. Then I realized, to my dismay, that it was Independence Day and the neighbors had begun celebrating with those darn fireworks.

Ron Harper

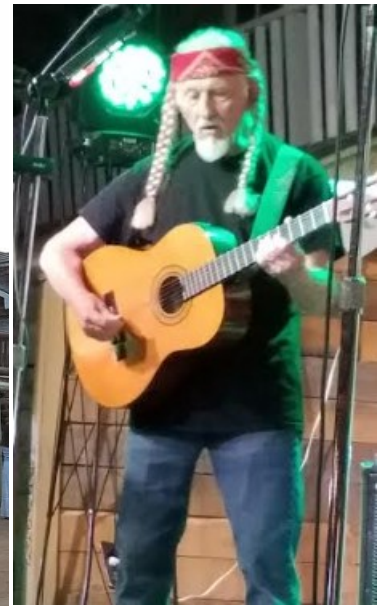

State IOY

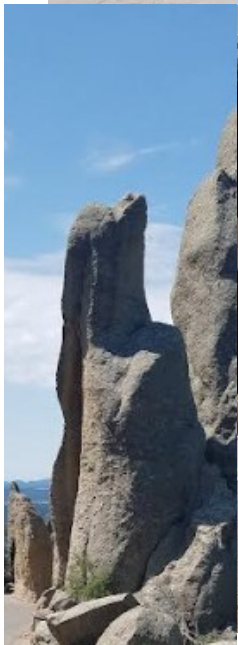

It can't really be July 4th already, can it? Where did the Spring go so fast? It doesn't seem more than a couple weeks or so since that chill was in the air and there was frost on the lawn each morning. Well, if that is the way it is, we just have to live with it. As they say; Time flies when you're having fun.

You are having FUN aren't you? Speaking for myself, and most of my friends, we are! In our Chapter, this fun is thanks to our wonderful ride coordinators, our camping coordinators, and our events coordinator, who all make FUN a practically every day occurrence. If you're not having FUN and are not taking advantage of the prepared events in your Chapter, then it's your own fault. There have been numerous fun opportunities: The Ride-In was a great weekend in Western Kentucky, and KY Chapters offer lunch and dinner rides, along with weekend trips. A bunch of us even spent a wonderful week in South Dakota! If you aren't having FUN yet this year, don't wait any longer, because old man Winter will be coming way too soon!
