Inside Kentucky

Great Riding Weather-Finally

Kentucky Chapters are out and riding, enjoying some beautiful riding weather and some amazing scenery. Spring started out with quite a bit of rain, causing some planned rides to be cancelled, but things are looking up and KRR is finally getting out to ride! Let the FUN begin!

State Directors Report

Rick and Leah Cridlin

Kentucky State Directors

June already! I hope you all made plans to attend the Ride-In because it was a great time. I have anticipated June for the past several years ever since we started moving the Ride-In around the state to give the host chapter an opportunity to showcase their local area. Kentucky is a beautiful state for riding, and it is always nice to have someone familiar with the area leading a ride. We have been fortunate to have had some great weather, and not so fortunate with rain, but the one constant was a great time sharing it all with some truly amazing people. The wonderful people throughout the state have provided some amazing memories.

I've had a lot of alone-time driving this past couple of weeks for Leah's company seeing some of the places visited on past motorcycle trips. I remember seeing some of the places, but what really struck me is how many friends I thought of who were with me on those trips. It is times like that when I really appreciate everything this organization has done for me over the past 21 years. I've made so many friends through the years and there is only 1 couple that I knew prior to joining, so that is a lot of new friends. As some of the faces popped into my head, I thought about how much I knew about each person, and realized that outside of our shared hobby, I know very little about a lot of people, and I find that it just doesn't matter. What does matter is the fun we share when we are together doing one of the things we really enjoy, which is our motorcycles, and spending time together discovering new places, or just sitting around talking and playing games. There are so many of you out there that I love dearly, but have no clue whatsoever, as to what you do for a living, where you were born, and how you really feel about Ohio State, but it just doesn't matter, because our common bond is what works for us. I hope this is a feeling that you all have had the pleasure of experiencing within our organization. If not, then we have missed something somewhere and I'd like to work on that with you. Leah and I have attended Wing-Dings, state rallies, and other events with many of our riding friends, but we have also taken some amazing trips with friends we would have never met had it not been for this organization, and for that I just feel blessed.

The riding year is still new and there is so much going on within the chapters, and I hope you all find something to participate in. There is a lot of work that goes on behind the scenes to put together a group trip or ride, not to mention any special event hosted by your chapter. There is also the Ride-In, and the Blast at the state level. All the work is worth it when seeing a smile on the face of members who are enjoying themselves. You can be part of that rewarding feeling by just participating.

I hope that I will be seeing you soon. Stay safe!

Roger & Karen Early

State Webmasters

State Webmaster & Chapter C Directors

On behalf of Chapter C, Karen and I want to thank everyone that attended the 2026 Ride In in Winchester. No matter how much work Chapter C and the State Team put into the event, it cannot succeed without the participants. We are grateful for everyone who attended, and we are very happy that we had someone from every chapter in attendance. For those of you who could not attend, we hope you can attend the next Ride In.

Karen and I also want to thank Rick and Leah for all of their help as we were planning the Ride In. Both of them helped answer questions that came up while we were preparing for the Ride In. Since this was our first time hosting one, I was very anxious about whether we had everything covered. My biggest concern was making sure the rides were safe by having enough Road Captains and Tail Gunners that could communicate using our Sena headsets. Rick kept telling me, "It always works out" and I'm happy to admit he was right.

We want to thank our "guest tail gunners" that offered their help with the rides. Thanks to them, all of the rides came back safe. Rick, Bruce, Miles & Mark and Steve & Debi served as our "guest tail gunners" and did a great job. Thanks to you, Rick was right, "it worked out".

Thanks go out to the whole State Team that took care of all the small details that make our State events a success. From carrying supplies into the gym, setting up tables, working the registration table, selling 50/30/20 tickets, selling basket tickets, emptying trash, cleaning up after the event and helping carry the supplies back out of the gym. I'm sure I left out other tasks they took care of but thanks to them for their efforts.

We are also thankful for everyone that bought tickets for the basket raffles. Thanks to your generosity the chapter received \$198 from chapter basket. Thanks to Bruce and Kathy who gave us \$2 to make it an even \$200. Chapter C also did well as the tickets were drawn for the baskets. Dedre won the Chapter Basket, Mitch won 2 baskets and Gerry won the basket that contained the rear tire for a Gold Wing.

Once again, on behalf of Chapter C, thanks to everyone that made the 2026 Ride In a huge success.

State Educators Report

**Rick and Kim
Artmayer**

State Educators

Tool. What is the first thing that comes to your mind when you see this word? Until sometime around 2008, my first thought would have been Sears Craftsman. Why? Because at that time it was still a brand that offered items made in the USA of decent quality at a reasonable price, many with a lifetime guarantee, and often on sale. And you could also find some specialty tools of other brands in their catalog that would make the job easier and “done right”. But as my familiarity with the internet, the complexity of my projects, my understanding of code compliance, and especially my day job responsibilities have grown, my first thoughts have changed. My initial reaction to the word tool is now completely dependent on the context in which it appears.

When the context is my day job, software applications are the tools that come to mind. My favorite tool is the drawing software I use to develop the radio control transmitter layouts and receiver wiring diagrams. The drawings I make with this tool become the instruction set (another tool) used by the technicians to assemble the parts that become the radio system (another tool) our customers will use to operate their machines. Our drawing software requires training to learn how the different mouse movements and keystrokes affect manipulation of the images on the screen. Additional training allows us to stay up to date on changes and improvements in the refinement of the software and advances in our product. Without continued training, new product developments and features would be impossible to implement.

When the context is yard maintenance, I think of lawn mowers, weed eaters, and leaf blowers. These tools also require some training, usually what can be learned from the operators’ manuals and repetitious use, to become efficient in their use and care. Things like safety interlocks, speed settings, and maintenance tasks all need to be learned and practiced allowing for fast, safe and efficient operation. Additionally, suggested safety gear like sturdy footwear and the use of eye and hearing protection allow for safe and comfortable operation.

In the context of motorcycling, the first tool that comes to mind is the bike itself. A motorcycle helps us travel from one place to another quickly and with less effort than walking. Riding safely and keeping the motorcycle under control require training and practice. Operator manuals explain how to use the bike’s performance and convenience features properly. Regular riding helps build familiarity with the machine, making each ride safer, more enjoyable, and more rewarding. Motorcycle specific training courses provide additional skill enhancement to improve operation and safety. Motorcyclists can use tools like online research and conversations with other riders to better understand best practices and how to use their motorcycles effectively and safely. Riding gear like helmets, boots, jackets, and gloves are tools we can use to make the ride more comfortable and enjoyable.

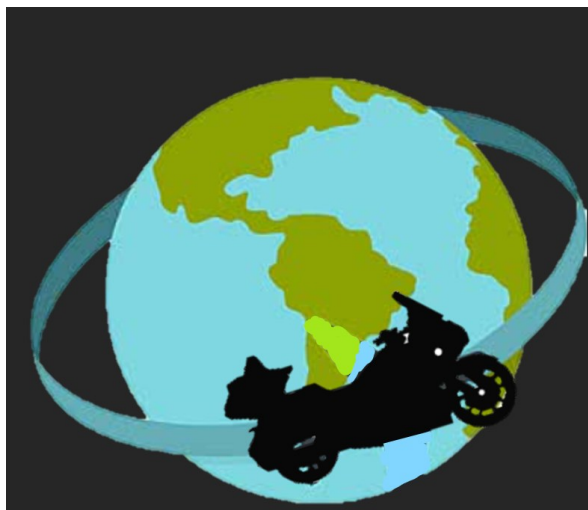

State Member Enhancement Report

Dean & Lora Miller, Miles Justice & Mark St John

State MEC

Hello KRR Family! We hope this article finds you satisfied with your experience at the Ride In. The event which was hosted by Chapter C, took place June 4 – 6, in Winchester Kentucky. Thursday was a pre-Ride In group dinner at Ramsey's in Lexington, followed by 2 days of amazing rides. Chapter C folks have put a lot of time and effort into planning this event, including some scenic guided rides as well as self-guided options. Friday evening featured a catered dinner. Plus, both Chapters K and Y had their June meetings at the event to make it easier for those in other parts of the state to be able to attend their meetings this year. It was an amazing time like it always is when KRR folks get together. We will also include a shameless plug here for the Around the World in Kentucky state-wide riding challenge. The challenge includes 29 distinct locations across the state, some within a short distance of one another and others spread far apart. Whether you have just a couple of hours, a full day, or an entire weekend (or longer), you should be able to visit one of the locations without much trouble. Hopefully, this will give you a chance to enjoy the fresh air and have some wind therapy if you want to ride but not sure where to head. Also, visiting other chapters is a great idea for a ride if you are free on the day of one of their meetings. We always enjoy getting together with our KRR family – whether or not the traveling plaque and COY/IOY mascots are up for grabs. Just check out the kyroadriders.org to check the days and times with all the chapters meet. Hope to see you all on the road soon!

State Campfires & Comforters Tour

The State Camping trip has been confirmed!!

Campfires & Comforters Tour

July 24 - 26, 2026

Leah Cridlin

State Cruise Director

Campground:

Cave City RV Campground

216 Gaunce Dr.

Cave City, KY 42127

270-773-4678

The campground is holding a block of campsites for us. Please call to make your reservations and mention Kentucky Road Riders.

The rate is \$58.50 per night.

Two motorcycle campers can share a site. Only one person should call to make the reservation. The block will only be held until April 11th. The only reason there is a block is because half the campground is already booked.

Two Hotels are right next to the campground.

Hampton Inn Cave City

803 Sanders St

Cave City, KY 42127

270-773-7300

Rates start at \$180 per night

Comfort Inn & Suites Cave City

819 Sanders St

Cave City, KY 42127

270-261-4053

Rates start at \$137.00 per night

There are other hotels in the area, but these are the two next to the campground. No blocks are reserved, this is a make your own reservation kind of trip.

Rick is going to make our reservation from July 23-26. He plans to ride Friday(24th) and Saturday(25th) to as many "thumbs up" spots as possible on the Around the World in Kentucky 2026 Ride Challenge. You can ride as much or as little as you wish on this trip.

If you plan to join us on this first Campfires & Comforters Tour, please let us know. We are looking forward to riding and hanging out with you!

Around the World in Kentucky

Welcome to the 2026 State-wide Challenge – KRR Around the World in Kentucky! It is simple to play and hopefully includes something for everyone. Everyone who wants to participate will receive a location list of 29 Kentucky cities. Each of these cities correspond to one in another country – the countries are also included on the list. The objective of the Challenge is to visit each city and snap a picture. The specific address for the location to visit is also provided on the list. In almost all instances, it is the local post office. For those few cities that do not have a post office, an alternative location has been picked and the address for those places are included on the list. Once you reach the indicated address, simply snap a pic with your face and thumb up in front of the designated building. While this is intended to be a riding Challenge, we recognize that, for a variety of reasons, some of our KRR friends will not be riding this season or at least not as much. Therefore, please feel free to complete some or all of the Challenge in your automobile.

Once you have collected all 29 pics, email those to mepc@kyroadriders.org. If the image files are too large for a single email, feel free to send in multiple messages. Just be sure to notate the city number or numbers in the subject of each message – i.e. KRR Around the World in Kentucky Challenge - #5-#11.

The Challenge will run from the Winter Warm Up (January 30th & 31st) until midnight Saturday, August 8th. The winner will be randomly selected from all completed entries received by that date and be announced at the Blast at General Butler State Park August 13-15. Compete to win a sweet prize – a \$50 gift card – but more importantly for bragging rights. We had a good bit of participation in 2025 and are hoping for even more this year! The Challenge List will be available on the KRR Website, on the KRR Facebook Page and via email from mepc@kyroadriders.org. Additionally, hardcopies will be available at the Winter Warm Up and from your Chapter MEPC.

If you have any questions or encounter any issues, please contact Miles, Mark, Dean and Lora at mepc@kyroadriders.org. Thanks in advance for playing. Have a great time!
